HiPath Xpressions Compact

SIEMENS

- ◆ **Callback** of message originator

if Xpressions Compact has received the CLI of the person leaving the message it can call them back without you having to dial their number

- ◆ **'Personal Auto Attendant'** facility

rather than just leaving a standard greeting you can give callers the ability to connect to other extns or external numbers instead of leaving you a message

- ◆ **Full remote access** for mobile users

access your mailbox from your mobile or your home telephone. All the features of Xpressions compact are still available to you

- ◆ **External notification** of message

if you are away from the office Xpressions Compact will call your external number and read any new messages to you
